An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 15, line 3, replace the *second occurrence* of "oxides" with -hydroxides--.

This amendment merely corrects an obvious typographical error.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or suggest the combination recited including carbohydrate, protein, iron compound and strong base. The instant specification explicitly requires the combination of carbohydrate and protein (endosperm) to obtain the basic and novel characteristics of the invention. References like US 3131074 fail to teach or suggest the improvements observed with the inclusion of the combination of carbohydrate and protein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David M Brunsman whose telephone number is 571-272-1365. The examiner can normally be reached on M, W, F, Sa; 6:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Bell can be reached on 571-272-1362. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
